VEGAN

The Plant Powered Women's Network is a brand new initiative. It is a global ethical leadership membership community for vegan women, to help them become leaders in their field. Veganism is an ethical philosophy which seeks, as much as is practically possible, to not exploit, harm or consume animals or their parts.

SYMBOLS

One of the most popular symbols for veganism is a "V" with a leaf. It can be made in various ways, and here we used leaf as a "vegan symbol".

Why we should become vegan?

For animals

For planet

For better us

This is the best and easiest way to help animals prevent their sufferings. As meat eaters have to kill animals for consumption.

Consumption of animals is the worst thing that happens on our planet. Avoiding such activities is beneficial for the planet.

By being a vegan, we can actually nurture our health. Vegan people are less likely to develop health issues.

COLOURS

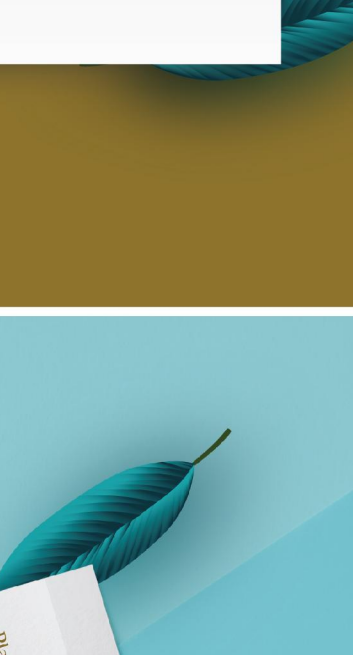

- #FACE14
- #8C722C
- #8C722C

"The blue represents corporate/business/professional but not too much. The yellow or gold represents light, brightness, fresh, warm, welcoming, community."
